I am a web developer who recently earned a certificate in full stack development from the University of Minnesota with an A grade point average. With newly learned skills such as react, node, mongo, and express, I look forward to being in a role where I'm constantly learning new things. Past work experience has involved independent research and communication, and I look forward to applying this to my new role. I'm goal-oriented, focused, not afraid of hard work, and good at taking direction and running with it.

Projects:

Pizza Hunt
Allows you to create and share your favorite pizza recipes.
Languages/Tech: Node, JavaScript, CSS, Heroku, HTML, Express, and Mongodb.
https://github.com/chasechri/pizza-hunt
https://young-tundra-07546.herokuapp.com/

Experience:

Grassroots Sean Gregory, Denver CO | April-November 2021
Deputy Canvasser
Lead a group of 20+ people to canvass the city of Minneapolis for the 2021 city election. Responsible for recruiting and hiring team members. Performance was based on the number of doors knocked and surveys conducted while persuading voters. My team was ranked as one of the top for performance.

Divine Shine Cleaning Company, Minneapolis MN | April-December 2021

Sales Associate
Responsible for recruiting new clients for both home and commercial cleaning services.

Home Depot, Minneapolis MN | January-April 2021
Order Fulfillment
Responsible for offloading stock deliveries, processing work orders, locating merchandise, and packaging orders for shipment.

Self-employed | 2019 - 2021
Painter
Painting jobs included exterior and interior painting services for property companies and residential neighborhoods throughout the twin cities metro.

Education:

Washburn Highschool | 2015 - 2019

Minnapolis Community and Technical College | 2019 - 2021
High Honor Roll (3.7+ GPA)

Univerity of Minnesota Coding Bootcamp | 2022
Grade average of 95%
